Mike,

thank you so much for the article about Cleveland. I am very glad that your office is in place and is handling so many of the things wrong with our communities. Please know that we in the trenches so appreciate all you do.

Also wanted you to know that we closed on the building and now we and Wes Banco own the building. We are excited though and on april 28--Sunday afternoon from 2-4pm we will have Father Ken Hummel, and several other pastors come and dedicate and Bless the building. We invite you and whoever else in your office who would like to come. The Hispanic community is going to make the food for the event and we will have a party. We hope you can come as we would like to dedicate a room to whoever you would like and the garden to Rosemary Powell.

Again thank you for all you are doing from Columbus. I know Jennifer is busy getting some videos for Cole's Warriors and we are busy in all other programs. it is going to be a very busy year.

List account number(s) here (optional)		

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number								
or								
Employer identification number								

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. person (including a U.S. resident alien).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. (See the instructions on page 4.)

Sign Here	Signature of U.S. person ▶	Date ▶
------------------	-------------------------------	--------

Purpose of Form

A person who is required to file an information return with the IRS, must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

U.S. person. Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee.

In 3 above, if applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

For federal tax purposes, you are considered a person if you are:

- An individual who is a citizen or resident of the United States,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States, or
- Any estate (other than a foreign estate) or trust. See Regulations sections 301.7701-6(a) and 7(a) for additional information.

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

- The U.S. grantor or other owner of a grantor trust and not the trust, and
- The U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person, do not use Form W-9. Instead, use the appropriate Form W-8 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien.

Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the recipient has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity not subject to backup withholding, give the requester the appropriate completed Form W-8.

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments (after December 31, 2002). This is called "backup withholding." Payments that may be subject to backup withholding include interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the Part II instructions on page 4 for details),

3. The IRS tells the requester that you furnished an incorrect TIN,

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See the instructions below and the separate Instructions for the Requester of Form W-9.

Also see *Special rules regarding partnerships* on page 1.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Name

If you are an individual, you must generally enter the name shown on your income tax return. However, if you have changed your last name, for instance, due to marriage without informing the Social Security Administration of the name change, enter your first name, the last name shown on your social security card, and your new last name.

If the account is in joint names, list first, and then circle, the name of the person or entity whose number you entered in Part I of the form.

Sole proprietor. Enter your individual name as shown on your income tax return on the "Name" line. You may enter your business, trade, or "doing business as (DBA)" name on the "Business name" line.

Limited liability company (LLC). If you are a single-member LLC (including a foreign LLC with a domestic owner) that is disregarded as an entity separate from its owner under Treasury regulations section 301.7701-3, enter the owner's name on the "Name" line. Enter the LLC's name on the "Business name" line. Check the appropriate box for your filing status (sole proprietor, corporation, etc.), then check the box for "Other" and enter "LLC" in the space provided.

Other entities. Enter your business name as shown on required federal tax documents on the "Name" line. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on the "Business name" line.

Note. You are requested to check the appropriate box for your status (individual/sole proprietor, corporation, etc.).

Exempt From Backup Withholding

If you are exempt, enter your name as described above and check the appropriate box for your status, then check the "Exempt from backup withholding" box in the line following the business name, sign and date the form.

Generally, individuals (including sole proprietors) are not exempt from backup withholding. Corporations are exempt from backup withholding for certain payments, such as interest and dividends.

Note. If you are exempt from backup withholding, you should still complete this form to avoid possible erroneous backup withholding.

Exempt payees. Backup withholding is not required on any payments made to the following payees:

1. An organization exempt from tax under section 501(a), any IRA, or a custodial account under section 403(b)(7) if the account satisfies the requirements of section 401(f)(2),

2. The United States or any of its agencies or instrumentalities,

3. A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities,

4. A foreign government or any of its political subdivisions, agencies, or instrumentalities, or

5. An international organization or any of its agencies or instrumentalities.

Other payees that may be exempt from backup withholding include:

6. A corporation,

7. A foreign central bank of issue,

8. A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States,

9. A futures commission merchant registered with the Commodity Futures Trading Commission,

10. A real estate investment trust,

11. An entity registered at all times during the tax year under the Investment Company Act of 1940,

12. A common trust fund operated by a bank under section 584(a),

13. A financial institution,

14. A middleman known in the investment community as a nominee or custodian, or

15. A trust exempt from tax under section 664 or described in section 4947.

The chart below shows types of payments that may be exempt from backup withholding. The chart applies to the exempt recipients listed above, 1 through 15.

IF the payment is for . . .	THEN the payment is exempt for . . .
Interest and dividend payments	All exempt recipients except for 9
Broker transactions	Exempt recipients 1 through 13. Also, a person registered under the Investment Advisers Act of 1940 who regularly acts as a broker
Barter exchange transactions and patronage dividends	Exempt recipients 1 through 5
Payments over \$600 required to be reported and direct sales over \$5,000 ¹	Generally, exempt recipients 1 through 7

¹ See Form 1099-MISC, Miscellaneous Income, and its instructions.

² However, the following payments made to a corporation (including gross proceeds paid to an attorney under section 6045(f), even if the attorney is a corporation) and reportable on Form 1099-MISC are not exempt from backup withholding: medical and health care payments, attorneys' fees, and payments for services paid by a federal executive agency.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN. However, the IRS prefers that you use your SSN.

If you are a single-owner LLC that is disregarded as an entity separate from its owner (see *Limited liability company (LLC)* on page 2), enter your SSN (or EIN, if you have one). If the LLC is a corporation, partnership, etc., enter the entity's EIN.

Note. See the chart on page 4 for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local Social Security Administration office or get this form online at www.socialsecurity.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/businesses and clicking on Employer ID Numbers under Related Topics. You can get Forms W-7 and SS-4 from the IRS by visiting www.irs.gov or by calling 1-800-TAX-FORM (1-800-829-3676).

If you are asked to complete Form W-9 but do not have a TIN, write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note. Writing "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded domestic entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if items 1, 4, and 5 below indicate otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). Exempt recipients, see *Exempt From Backup Withholding* on page 2.

Signature requirements. Complete the certification as indicated in 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer. Certain penalties may also apply.

Melinda,

We are getting our grant proposal and budget together but can you send me a written listing as to what we can fund and anything past the basics of programming, such as marketing and hiring a contractor for things like the garden and the network items. I am not sure if that is allowable and would like to see -- if you can get it--the wording so I know what I am working with. Thanks so much and by next week I hopefully will have all this in to the grant people.

Again, thank you for all you are doing.

Hello Pat,

So sorry Pat, I did see your email on Saturday, I was actually traveling to Perrysburg for a Boys and Girls Club event when I received your email. I meant to get back to it yesterday, but I didn't.

Unfortunately, we don't have a defined ?list? of things we will fund. I would stick to programmatic costs. As I said when we met, we like to stay away from operating costs or staff. As far as your program where you teach women and children to garden, we might be able to pay for supplies for the program, but not landscaping.

I was talking to Jennifer about Cole's Warriors in general and she mentioned some things that we might be able to fund, specifically, materials for presentations, website updating, cost for the production of additional video segments (bullying, discrimination, suicide ideation).

Christina Frass and Jonathan Vega are the grants specialists. For more specific feedback, please call one of them, as they will ultimately approve your grant application.

Christina's contact is 614-728-9335 and Jonathan's contact is 614-466-1348.

Good luck!

Melinda,

I know how busy we all are, but did you see my last email to you ask for a written set of the regulations about this grant. We have some great ideas, but really need to know exactly what

the rules are about spending the money so we do not right for the wrong things again. Thanks so much--as soon as I get this, I can get this ready and send it in.. If you cannot get it for me, who can? Thanks so much--will you be at the opiate conference next week. I may see you there.

I am so sorry it is just a very busy week. Are either of you free past 3pm. Tomorrow, I have meetings from 9:30 am til 1pm. I think I am free after that. And then I will be in Columbus Monday and Tues for the Opiate Conference and I could meet in person then. Just let me know, we are very anxious to get this written and filed. Thanks so much for all your help Melinda.

Melinda.

Thanks for the answer back. The best time that works for me this morning is between 8 and 9am. I have meetings and a funeral today to go to and if this can happen that would be great. I do not have anything formalized in writing for our ask--but have been gathering stats and information for justification for our needs. I would love to have this call though, as we understand part of what we can do, but since there have been some misunderstandings, I would like to see the written regs about what exactly it says. When I called yesterday, the young man told me Michael was writing us a specific grant proposal for us to fill out--I thought I had done that already with what you had sent. And he said he was not sure when this proposal would be written up for us to do--it was all very confusing.

While we are very, very appreciative, I want to do this right the first time I submit, so just need to know what I am doing. If today does not work out, as I said, I will be in Columbus on Monday and Tues and perhaps could see Michael then. Please let me know--we have a couple of great plans and would love to begin them if we can.

Pat B.

On March 12, 2012, Ohio Attorney General Mike DeWine settled with five of the nation's largest mortgage servicers over foreclosure abuses, fraud, and unfair and deceptive mortgage practices. Ohioans will receive numerous benefits from the settlement including its share of \$330 million in relief through loan modification, principle reduction, and interest rate refinancing programs. FAMILY AND YOUTH INITIATIVES PROPOSAL

OVERVIEW: Our program has a need for providing education to the communities we serve to ensure success of our programs and to allow families to escape the foreclosure of their homes.

To be effective within the communities that Family and Youth Initiatives (FYI) serves, education is vital so the families that are most threatened within those communities have the items they need and the information that is necessary to escape the horrors of foreclosure and/or rebuilding their lives after. FYI serves those communities with education and resources that allow it to affect family structures and strengthen them to become the families who can survive and prosper in today's economy.

One of the missing pieces to do this job is an ability to check the effectiveness of what we are doing. This is vital to have the ability for process improvement, the development of alternative and more effective programs, to have test markets to make the improvements and new measures on course for a successful program. With an effective tool for measuring the process and effectiveness of the programs, FYI will be able to be more of an impact within each community they are in.

Because FYI has a role in six counties and because most of these counties are rural and utilize Internet and web services as a basic way of communications, and because many in our target groups of young and middle age families use those services as their form of education and communication, FYI would like to utilize the website as a tool to educate, outreach and become the resource that so many need to become self sufficient, good parents, and financially sound.

In looking at other non-profit organizations that utilize government funding for programming, services that help the economically depressed, news of their materials and resources, FYI notes that Second Harvest Heartland relies on the web services very efficiently and has direct links to many in their customer base. With expanded arms in the extended counties, FYI could more effectively develop YouTube videos with employer information and testimonials from former clients that would encourage the new clients to keep motivated to successful job employment, and the understanding their role in the family setting and in their communities.

FYI, with its programs and its successes in especially Clark and Greene Counties could extend that success to the other counties—Miami, Logan, Champaign, and Shelby—by being the educational resource for its different programs. That is only if FYI can create a website that will be an extension of the programs and services offered by the main office and its extensions in Greene and Clark Counties. With an addition of an integrated email system FYI will be allowed to organize these communication efforts and be able to help more families to success.

But with these additional processes and services, FYI has to have a way to measure effectiveness and to measure the accuracy of email acceptance, of program effectiveness and of movement toward self-sufficiency. To do this FYI must have the ability to check the efficiency of its

programs on a monthly and quarterly basis to understand where improvements and tweaks need to occur for better efficiency.

PROCESS

Develop the website programs that will allow our current programs to be streamed to all the counties that FYI helps. With the use of educational materials, YouTube produced materials, testimonials from both clients and employers, videos and educational programs, homework assignments and job readiness skills and other tools that are needed to be successful.

PROCESS DEVELOPMENT

We will develop the tools which will allow FYI to measure the effectiveness of its programming specifically through a website, email and measurement tools to test who is actively using the extension services.

PROCESS MEASUREMENTS OF THOSE PROGRAMS

To understand and be able to measure the effectiveness of the website and to further develop it for greater success and reach. We will do this by tweaking our programs if they need it to be more effective and successful.

PROCESS EVALUATIONS FOR SUCCESS

Having a process to evaluate the success of the program on a monthly and yearly basis. The evaluations will happen at least twice a year, in person and in each county to gather feedback both individually, in groups, and through social media as to effectiveness of programs so we can make specific changes to become more successful.

We will develop a dashboard for the website that will give us keys to process improvement monthly and the ability to do data base collection to understand effectiveness.

Have quarterly sessions to see how we can improve, work on community collaborations and surround our clients with support so they can see continued success.

**BUILDING TOOLS THAT PEOPLE USE NOW FOR THEIR EDUCATION,
SOCIALIZATION, AND THEIR GUIDE TO LIVING AND PROSPERING IN LIFE**

In understanding that this program is of interest to the grant being given by the state of Ohio, FYI submits this budget to accomplish the goals of the proposal.

Programmatic Essay Questions

On March 12, 2012, Ohio Attorney General Mike DeWine settled with five of the nation's largest mortgage servicers over foreclosure abuses, fraud, and unfair and deceptive mortgage practices. Ohioans will receive numerous benefits from the settlement including its share of \$330 million in relief through loan modification, principle reduction, and interest rate refinancing programs. The Attorney General has allocated \$18 million for a grant program to provide assistance to families and individuals who are at risk of foreclosure or have already lost their home.

Programmatic Essay Questions

1. SUMMARIZE YOUR GROUPS CURRENT MISSION

Family and Youth Initiatives mission is "Educating Families/ Strengthening Communities" and its vision is "Working hand in hand with communities to educate families and youth to make positive choices in their lives." Since 1978 FYI has worked diligently within the communities it serves helping families to get the tools they need to become self sufficient, to become good citizens and employees within their communities. As one of the only groups within the areas it's offices are in and with the unique programs that it has developed there is a need for each of the programs to allow the clients and youth to be able to fulfill their full potential and break the cycle of poverty, addiction, or dysfunction that is not allowing them to become productive citizens. FYI and its programs have been successful with this approach since 1978 and the need today has grown as the family unit disappears.

2. ORGANIZATIONS FYI PARTNERS WITH

FYI partners with almost every school district with Clark, Champaign, Greene, Logan, Shelby, and Miami Counties through its in school programs with both character development and prescription drug prevention programs; with Clark County Job and Family Services, Western Clark County Business Coalition, Jobs and More, The Job Center, Combined Health District of Clark County, Mental Health Recovery Board of Clark, Greene and Madison County, The United Way of Montgomery, Logan, and Greene Counties, The Nehemiah Foundation of Clark County, the Pregnancy Center Coalition of Miami Valley, Family Life Board of Archdiocese of Cincinnati, Cole's Warriors Partnership of Clark County; Clark County and Springfield Sheriff's Department, Rocking Horse Center of Springfield, Children's Medical Center, New Carlisle and Bethel Fire Departments, Hagen Center of Wittenberg University, Urban Light Ministries, OIC and the WEP program to get families off of welfare. FYI also partners with Marriage Resource Center, Springfield Chamber of Commerce, and The Growth Coach for job readiness training. FYI has computers from Job and Family Services to work with the Bethel Township community with help with resumes and job searches. Through our various programs and grants, we also have partnered with Antioch Midwest College, Wright State University, Wittenberg University, and Clark State College.

3. POPULATION IT SERVES

Within about 70% of our programs, FYI works with youth and families within Clark, Greene and Champaign Counties. Most of the population served are families or youth with families who have been hurt deeply by the recent recession and struggling to find a way to understand their new economic position, to gain back what they have lost, and to become home owners once again. Some of our clients are young and just beginning their lives, but they have no foreseeable chance of being a home owner like their parents because of past debt and/or recent foreclosures and lack of job skills. Looking at the recent statistics of foreclosed home we find a significant number of homes not only in the Clark

County Area, but specifically in Springfield and in New Carlisle where our offices are. FYI Springfield office is also located in what is identified as one of the worst areas for crime in the city and thus many of our clients are caught up in the devastation of crime and victimization and need the extra help to get out of poverty. Statistics have just come out about the foreclosure rate in Ohio is still four times as high as it was in 1995. And our last city with a FYI office in it, Fairborn, was just declared the city with the highest poverty rate in Ohio. With all those factors FYI

4. Describe the geographic scope of your project

Since FYI works in 7 counties—Clark, Miami, Champaign, Greene, Shelby, Logan, and Montgomery—our geographic scope will cover people in those counties with two of our programs—Real Life...A Matter of Choices and Cole's Warriors Prescription Drug Prevention Project. The rest of our programs—Women's Network, Fatherhood Program, Gardening for Health, Kid's Hope, Latino Connection, GED program, and Little Scholars—are concentrated in Greene and Clark County and so the geographic scope of those are Springfield, Bethel Township, and Fairborn Ohio. FYI's mission is ***"Educating Families/ Strengthening Communities"*** and to accomplish that the programs focus on our three office areas and the surrounding areas—all of which have many families that are in need of our services.

➤ Describe how your project will provide assistance to families or individuals who are at risk of foreclosure or have already lost their house.

FYI's nine programs focus on assessing each family who comes for help and encouraging them to enter into one of the programs that will give them the tools they need to become self sufficient so they are not at risk of foreclosure. With the youth FYI's curricula is aimed at teaching them skills so they can make positive choices in their lives and make long term goals which, if utilized will protect them from this devastation. At the Networks, FYI concentrates on working more one to one with each family adult and providing them with life skills education, GED training if necessary, skills for healthy living so they can successfully keep a job, and job training for basic jobs such as maintenance person, housekeeper, garden assistant, clerical worker, and child care provider. With the training in these areas and with the help in the areas of addiction, parenting skills, relationship skills, and basic life skills, many of our clients have successfully moved on in life and are productive members of the community.

WORK PLAN ESSAYS

1.What would the grant funds be used for:

Ohio Attorney General Mortgage Grant Application
Family and Youth Initiatives
468 Dayton Lakeview Rd
New Carlisle, OH 45344

The grant funds will be used to provide material assistance to help in the delivery of services for the programs we are utilizing. They will provide the material items needed to make the program a success and also provide help for those within the program to understand the concept of the program—as in the nutrition cooking class—or provide FYI with the items it needs for the teaching of the life skills programs and the job training. Grant funds will also provide our clients needed equipment to practice on for the jobs they are training for and provide materials for various outlets where FYI can let the public know about its programs and their asset to the community. That will allow us to reach more clientele which will help the community and individuals break the cycle of poverty and loss of homes. A detailed list of each program and its place in this will be included.

Page | 3

2. Outline at least one substantial and concrete goal this project will attempt to achieve. Goals are statements regarding the type of broad change that will occur in your community as a result of your program. They may be either short-range or long-range.

The goal of this program is to assist families and youth in averting the throes of poverty and addiction/ or breaking the cycle of it by educating them and giving them the ability to learn specific life skills which will allow them to become productive citizens for their communities. This is a long range goal for FYI which will take several steps--outlined below to attain.

3. Outline objectives that will result from the proposed project. Objectives are specific, observable, timeframed, and measurable. They should relate to your goal

FYI three objectives to obtain this goal will be:

1. ***To continue and expand existing programs*** that have proven to be successful in both stimulating the populations affected but also have been successful in giving participants the skills need to rise out of poverty and to stay out of foreclosure.
2. ***Establish a job skill training program*** to give basic skills to the participants so that qualify for a ground level job and have the skills to keep it when they are hired.
3. ***To expand the current marketing campaign*** to work with business and organization more effectively so that the clients and participants may be served better.

4. Describe the steps necessary to accomplish your objectives including an operational schedule for the project.

The following steps will be necessary to accomplish our objectives and achieve the goal FYI has outlined. This will include a mix of continuing and expanding existing projects, creating a named project for a task we do to a small extent now—that is teach our clients basic job skills so that they are marketable in the job market today—and expand on the marketing campaign to include marketing to businesses to entice them to look at the clients and applicants who come to us for help. These together will allow FYI the ability to break the cycle of poverty, foreclosures and include them finally in the market to buy homes and become productive members of the community. These steps may change as challenges arise and new methods seem to be more successful. They are as follows:

Page | 4

1. *To continue and expand existing programs.*

- ✚ To begin FYI will market to those who are in the those of foreclosure, great financial constraint or poverty and will encourage them to 'see the vision' that can be theirs. FYI will use clients from all of their programs and will assess them for skill level and competency, state of their health, and other needs they may have that will stand in their way of becoming productive and job holding citizens.
- ✚ If needed FYI will encourage participants to one of its programs – GED, Gardening for Health, Women's Network and/or Fatherhood Program, Kid's Hope, Little Scholars, Latino Connection, Cole's Warriors, or Real Life—to move them along so that they are ready to positively stay at a job once they obtain it. This will build the platform necessary to succeed in a job. (Reasoning, over 69% of jobs are abandoned by job challenged people because of other issues that affect job performance. These would include mental, drug abuse, troubled children, and relationship problems. FYI programs address these issues so that participants can cope with their personal issues and still have a successful job experience.)
- ✚ To work within the programs FYI already has to help the families within those communities to obtain the life skills they need through education, training, hands on experience and both individual and group classes so that they can be self sufficient and able to provide housing for their family. This will be utilized over the next 1.5 years and will have a final evaluation in January 2015.
- ✚ This program will use all aspect of FYI programming to allow each segment of the family structure to participate in it. This will allow younger members of the family to learn from the past problems and not be caught in the emotional and financial crisis of their parents.
- ✚ To utilize the Real Life program for middle and high school youth to educate them about relationship skills, long term goals and specific refusal skills which will allow them the ability to grow into adulthood with the protective factors in place so they are not in poverty. These will

be evaluated by pre and post surveys for effectiveness. This program is ongoing throughout the school year and evaluations are done with the students in the classes.

- ✚ To utilize by various media and educational tools and in school and community programming, the dangers of prescription drug abuse and refusal skills before it begins. This will relieve both youth and adults the consequences of addiction and will assist them in avoiding foreclosure or poverty. This program is timeframed during the school year in classes and assemblies, and during the entire year to various community, senior citizens groups , and symposiums, and will be measured by the national Generation RX surveys given to the appropriate audiences.
- ✚ To work within the Greene and Clark County Bethel Township Communities to offer GED assistance so that the clients attending will have the help needed to pass their GED and be able to enter the workforce with the necessary education for many jobs. This is an ongoing project and will be measured by the amount of people within the class and those who sign up for their tests.

Page | 5

2. Establish a job skill training program to prepare the participants to not only be hired for a job, but then to be able to retain the job.

- ✚ To teach the basics of certain job skills so the clients are able to fulfill the required skills needed for entry level jobs. This will consist of skills in maintenance, office management, housekeeping, nutrition, and organization. This will commence in September of 2013 and will be a pilot program for one year and will be tracked by the amount of interviews, then jobs the participants succeed in getting
- ✚ Working with area churches and business, along with some companies that stress job placement and development, FYI will educate its participants in basic job skills, which will be defined and honed during the summer of 2013. Job training will begin in October of 2013 and will continue until December 31, 2014.
- ✚ Work with area community colleges to give participants in program specific classes and skills trainings that they need to increase their trainings so their skill level will increase.
- ✚ As participants move up the ladder of learning and understand the basics of job skills, they will be evaluated and they will move on to job placement.
- ✚ This cycle will continue throughout the pilot program until Jan. 2014, then be evaluated for effectiveness and continued funding.

3. To expand the current marketing campaign

Ohio Attorney General Mortgage Grant Application
 Family and Youth Initiatives

 New Carlisle, OH 45344

- ✎ A marketing plan will be put in place for FYI to be in concert with businesses who will have the ability to hire the participants who qualify for the jobs they are learning.
- ✎ Marketing plan will consist of all forms of communication to allow better visibility of the programs and the marketability of the participants within the program. This will be designed for any entity that has the ability to help the participants enter the work force and break the cycle of foreclosure or poverty.

5. Who will be responsible for completing the work necessary to achieve the objectives:

The directors of each individual project will be responsible for reporting to the executive director who will then be responsible for the entire program.

6. Specify the indicators and measures to be used to determine if your objectives have been met. The methodology, type of measurement utilized, and responsible individuals for collecting this data should be specified.

The indicators will be the percentage of people FYI has brought into and through the system within the next 1 ½ years. These will be determined by September 2013 in reference to needs of jobs needed in the business world and to what the basics of each job is. If not having jobs, the determination for successful objectives will be how many people are in the program and have made forward movement. The assessment of the participants will indicate what is needed for them to be ready for job placement and at each level of movement their progress will be noted. This data will be kept by each director of the each of the programs and will be assessed by both the individual who will determining readiness for job placement and the executive director.

Budget Narrative

1. What is the amount of grant funding you organization is requesting:
\$200,000.00

2. Please provide an itemized budget for the use of funds. This budget should be a specific and detailed breakdown of exactly how the funds will be used.

Ohio Attorney General Mortgage Grant Application
 Family and Youth Initiatives
 468 Dayton Lakeview Rd
 New Carlisle, OH 45344

Because FYI has eight different programs and many will fit into the model and proposal FYI is proposing, the budget and justification will be addressed and written so that each program is addressed and its needs in one area. Justification will be given and the timeframe will be forecasted so that the reader can see where each item fits in. FYI is requesting special dispensation in the percent of financial help in the area of salaries. Many of our programs rely on specialized people to teach specific education or curricula and this cannot be done well by volunteers. FYI uses volunteers as much as possible, however, if our programs call for experts in their areas, it has to find the best we can and many times the people needed have to be paid. FYI has always been very cautious and careful in hiring practices and is very conservative in giving hours, but to accomplish our programs and to be successful in training our participants and clients to both engaging in the particular programs, FYI needs the ability to have the help we need to both train and encourage many of our participants to keep going in the program and have the expert people to be their educators. And also needed are incentives to encourage them to keep going and to finish the curricula they need to do so they can move on.

THIS BUDGET IS BROKEN DOWN IN REFERENCE TO THE THREE OBJECTIVES.

Budget Item and Justification Timeframe to be used Amount

WOMEN'S NETWORK AND FATHERHOOD PROGRAM		
One of the biggest areas that FYI sees clients and families in crisis are those who come to our Women's Network or to the Fatherhood program . Most of these people do not have the ability to buy a home as they have been foreclosed on or they do not have the ability to buy one. But before they can buy a home, they have to have the basic necessities so they can feel comfortable leaving their children with daycare, feeling safe that their child has a place to sleep, and feeling secure that the child has diapers to wear. Then they can go to a job with their mind more to the job and not worrying about the safety of their child.

CLARIFICATION FOR GRANT FORECLOSURE GRANT

Family and Youth Initiatives has been asked to clarify points that are within its grant proposal. It has done so by taking each point for the grant.

1. Curricula for toddlers and dads for Earn While You Learn networks – any idea what this would consist of?
FYI uses the nationally acclaimed Earn While You Learn curricula which spans from maternity to toddlers to life skills and dads programs which have everything needed to teach the particular segments to our clients. This includes brochures, worksheets, DVDs and activities to do and each have special materials for the particular client. This is very hands on and is used for every client within the Network. The cost includes all of the above which will help about 50 clients.
2. Participant and mentor stipends for when one completes the GED testing – this is just the test costs, correct? Not paying the mentors?
This will cover the cost of the mentee—his test cost, his materials used to get him ready and his fees to get to and to take the test.
3. Budgeting courses and other curricula to be offered to students as part of curricula within Real Life curricula – Just needed some specifics on these?
Real Life already uses the Relationship Smarts and Relationships Under Construction national programs in the schools, but neither has much budgeting within their courses. FYI has used the National Endowment for Financial Education from Colorado to teach this section of the program and will make sure it is updated and cost contained then will use this or some similar curricula for this part of the program.
4. Items for students to help them understand budgeting and the importance of it. TBD but price for 5000 students @ \$1.50 each. – Any idea what these are?

FYI has looked at calculators and other mathematical items to allow students help with their budgeting needs. We are still looking but it will be either that or a help that will allow them to understand and be more assertive with their budgeting after the class ends.

5. Media campaign for awareness of Cole's Warriors – We can't fund media campaigns. I may have misnamed this as media, but what FYI would like is a continuation of the educational billboards which remind the public of the issue of prescription drug abuse and have been so successful for cutting the rates of drug use in the areas in which they have been placed. This is an educational tool to promote awareness and will be used in the counties in which we have not been active in, and this will be the first educational tool just before we present in the schools this year, to really resonate over and over with the students and parents in particular and public in general.

I think this is what you want. I had to recreate the paper and budget as it was in adobe so I apologize for not getting it back earlier. I have tried to make all the changes, both in the narrative and in the budget that we need to do, and hope it will work this time. Thank you Jesse for all your help. This will be a good thing and we are getting started on the jobs program on Sept. 9. Please let me know that you have this and what else we need to do.

WOMEN'S NETWORK AND FATHERHOOD PROGRAM			
One of the biggest areas that FYI sees clients and families in crisis are those who come to our Women's Network or to the Fatherhood program . Most of these people do not have the ability to buy a home as they have been foreclosed on or they do not have the ability to buy one. But before they can buy a home, they have to have the basic necessities so they can feel comfortable leaving their children with daycare, feeling safe that their child has a place to sleep, and feeling secure that the child has diapers to wear. Then they can go to a job with their mind more to the job and not worrying about the safety of their child.

Programmatic Essay Questions

1. SUMMARIZE YOUR GROUPS CURRENT MISSION

Family and Youth Initiatives mission is "Educating Families/ Strengthening Communities" and its vision is "Working hand in hand with communities to educate families and youth to make positive choices in their lives." Since 1978 FYI has worked diligently within the communities it serves helping families to get the tools they need to become self-sufficient, to become good citizens and employees within their communities. As one of the only groups within the areas it's offices are in and with the unique programs that it has developed there is a need for each of the programs to allow the clients and youth to be able to fulfill their full potential and break the cycle of poverty, addiction, or dysfunction that is not allowing them to become productive citizens. FYI and its programs have been successful with this approach since 1978 and the need today has grown as the family unit disappears.

2. ORGANIZATIONS FYI PARTNERS WITH

FYI partners with almost every school district with Clark, Champaign, Greene, Logan, Shelby, and Miami Counties through its in school programs with both character development and prescription drug prevention programs; with Clark County Job and Family Services, Western Clark County Business Coalition, Jobs and More, The Job Center, Combined Health District of Clark County, Mental Health Recovery Board of Clark, Greene and Madison County, The United Way of Montgomery, Logan, and Greene Counties, The Nehemiah Foundation of Clark County, the Pregnancy Center Coalition of Miami Valley, Family Life Board of Archdiocese of Cincinnati, Cole's Warriors Partnership of Clark County; Clark County and Springfield Sheriff's Department, Rocking Horse Center of Springfield, Children's Medical Center, New Carlisle and Bethel Fire Departments, Hagen Center of Wittenberg University, Urban Light Ministries, OIC and the WEP program to get families off of welfare. FYI also partners with Marriage Resource Center, Springfield Chamber of Commerce, and The Growth Coach for job readiness training. FYI has computers from Job and Family Services to work with the Bethel Township community with help with resumes and job searches. Through our various programs and grants, we also have partnered with Antioch Midwest College, Wright State University, Wittenberg University, and Clark State College.

3. POPULATION IT SERVES

Within about 70% of our programs, FYI works with youth and families within Clark, Greene and Champaign Counties. Most of the population served are families or youth with families who have been hurt deeply by the recent recession and struggling to find a way to understand their new economic position, to gain back what they have lost, and to become home owners once again. Some of our clients are young and just beginning their lives, but they have no foreseeable chance of being a home owner like their parents because of past debt and/or recent foreclosures and lack of job skills. Looking at the recent statistics of foreclosed home we find a significant number of homes not only in the Clark County Area, but specifically in Springfield and in New Carlisle where our offices are. FYI Springfield office is also located in what is identified as one of the worst areas for crime in the city and thus many of our clients are caught up in the devastation of crime and victimization and need the extra help to get out of poverty. Statistics have just come out about the foreclosure rate in Ohio is still four times as high

as it was in 1995. And our last city with a FYI office in it, Fairborn, was just declared the city with the highest poverty rate in Ohio. With all those factors FYI

4. Describe the geographic scope of your project

Since FYI works in 7 counties—Clark, Miami, Champaign, Greene, Shelby, Logan, and Montgomery—our geographic scope will cover people in those counties with two of our programs—Real Life...A Matter of Choices and Cole's Warriors Prescription Drug Prevention Project. The rest of our programs—Women's Network, Fatherhood Program, Gardening for Health, Kid's Hope, Latino Connection, GED program, and Little Scholars—are concentrated in Greene and Clark County and so the geographic scope of those are Springfield, Bethel Township, and Fairborn Ohio. FYI's mission is *"Educating Families/ Strengthening Communities"* and to accomplish that the programs focus on our three office areas and the surrounding areas—all of which have many families that are in need of our services.

5. Describe how your project will provide assistance to families or individuals who are at risk of foreclosure or have already lost their house.

FYI's nine programs focus on assessing each family who comes for help and encouraging them to enter into one of the programs that will give them the tools they need to become self-sufficient so they are not at risk of foreclosure. With the youth FYI's curricula is aimed at teaching them skills so they can make positive choices in their lives and make long term goals which, if utilized will protect them from this devastation. At the Networks, FYI concentrates on working more one to one with each family adult and providing them with life skills education, GED training if necessary, skills for healthy living so they can successfully keep a job, and job training for basic jobs such as maintenance person, housekeeper, garden assistant, clerical worker, and child care provider. With the training in these areas and with the help in the areas of addiction, parenting skills, relationship skills, and basic life skills, many of our clients have successfully moved on in life and are productive members of the community.

WORK PLAN ESSAYS

1. What would the grant funds be used for:

The grant funds will be used to provide material assistance to help in the delivery of services for the programs we are utilizing. They will provide the material items needed to make the program a success and also provide help for those within the program to understand the concept of the program—as in the nutrition cooking class—or provide FYI with the items it needs for the teaching of the life skills programs and the job training. Grant funds will also provide our clients needed equipment to practice on for the jobs they are training for and provide materials for various outlets where FYI can let the public know about its programs and their asset to the community. That will allow us to reach more clientele which will help the community and individuals break the cycle of poverty and loss of homes. A detailed list of each program and its place in this will be included.

2. Outline at least one substantial and concrete goal this project will attempt to achieve. Goals are statements regarding the type of broad change that will occur in your community as a result of your program. They may be either short-range or long-range.

The goal of this program is to assist families and youth in averting the throes of poverty and addiction/ or breaking the cycle of it by educating them and giving them the ability to learn specific life skills which will allow them to become productive citizens for their communities. This is a long range goal for FYI which will take several steps--outlined below to attain.

3. *Outline objectives that will result from the proposed project. Objectives are specific, observable, timeframed, and measurable. They should relate to your goal*

FYI three objectives to obtain this goal will be:

1. ***To continue and expand existing programs*** that have proven to be successful in both stimulating the populations affected but also have been successful in giving participants the skills need to rise out of poverty and to stay out of foreclosure.
2. ***Establish a job skill training program*** to give basic skills to the participants so that qualify for a ground level job and have the skills to keep it when they are hired.
3. ***To expand the current marketing campaign*** to work with business and organization more effectively so that the clients and participants may be served better.
4. ***Describe the steps necessary to accomplish your objectives including an operational schedule for the project.***

The following steps will be necessary to accomplish our objectives and achieve the goal FYI has outlined. This will include a mix of continuing and expanding existing projects, creating a named project for a task we do to a small extent now—that is teach our clients basic job skills so that they are marketable in the job market today—and expand on the marketing campaign to include marketing to businesses to entice them to look at the clients and applicants who come to us for help. These together will allow FYI the ability to break the cycle of poverty, foreclosures and include them finally in the market to buy homes and become productive members of the community. These steps may change as challenges arise and new methods seem to be more successful. They are as follows:

1. *To continue and expand existing programs.*

- ✦ To begin FYI will market to those who are in the those of foreclosure, great financial constraint or poverty and will encourage them to 'see the vision' that can be theirs. FYI will use clients from all of their programs and will assess them for skill level and competency, state of their health, and other needs they may have that will stand in their way of becoming productive and job holding citizens.
- ✦ If needed FYI will encourage participants to one of its programs – GED, Gardening for Health, Women's Network and/or Fatherhood Program, Kid's Hope, Little Scholars, Latino Connection, Cole's Warriors, or Real Life—to move them along so that they are ready to positively stay at a job once they obtain it. This will build the platform necessary to succeed in a job.
(Reasoning, over 69% of jobs are abandoned by job challenged people because of other issues

that affect job performance. These would include mental, drug abuse, troubled children, and relationship problems. FYI programs address these issues so that participants can cope with their personal issues and still have a successful job experience.)

- ✦ To work within the programs FYI already has to help the families within those communities to obtain the life skills they need through education, training, hands on experience and both individual and group classes so that they can be self-sufficient and able to provide housing for their family. This will be utilized over the next 1.5 years and will have a final evaluation in January 2015.
 - ✦ This program will use all aspect of FYI programming to allow each segment of the family structure to participate in it. This will allow younger members of the family to learn from the past problems and not be caught in the emotional and financial crisis of their parents.
 - ✦ To utilize the Real Life program for middle and high school youth to educate them about relationship skills, long term goals and specific refusal skills which will allow them the ability to grow into adulthood with the protective factors in place so they are not in poverty. These will be evaluated by pre and post surveys for effectiveness. This program is ongoing throughout the school year and evaluations are done with the students in the classes.
 - ✦ To utilize by various media and educational tools and in school and community programming, the dangers of prescription drug abuse and refusal skills before it begins. This will relieve both youth and adults the consequences of addiction and will assist them in avoiding foreclosure or poverty. This program is timeframed during the school year in classes and assemblies, and during the entire year to various community, senior citizens groups , and symposiums, and will be measured by the national Generation RX surveys given to the appropriate audiences.
 - ✦ To work within the Greene and Clark County Bethel Township Communities to offer GED assistance so that the clients attending will have the help needed to pass their GED and be able to enter the workforce with the necessary education for many jobs. This is an ongoing project and will be measured by the amount of people within the class and those who sign up for their tests.
2. ***Establish a job skill training program to prepare the participants to not only be hired for a job, but then to be able to retain the job.***
- ✦ To teach the basics of certain job skills so the clients are able to fulfill the required skills needed for entry level jobs. This will consist of skills in maintenance, office management, housekeeping, nutrition, and organization. This will commence in September of 2013 and will be a pilot program for one year and will be tracked by the amount of interviews, then jobs the participants succeed in getting

- ✚ Working with area churches and business, along with some companies that stress job placement and development, FYI will educate its participants in basic job skills, which will be defined and honed during the summer of 2013. Job training will begin in October of 2013 and will continue until December 31, 2014.
- ✚ Work with area community colleges to give participants in program specific classes and skills trainings that they need to increase their trainings so their skill level will increase.
- ✚ As participants move up the ladder of learning and understand the basics of job skills, they will be evaluated and they will move on to job placement.
- ✚ This cycle will continue throughout the pilot program until Jan. 2014, then be evaluated for effectiveness and continued funding.

3. To expand the current marketing campaign

- ✚ A marketing plan will be put in place for FYI to be in concert with businesses who will have the ability to hire the participants who qualify for the jobs they are learning.
- ✚ Marketing plan will consist of all forms of communication to allow better visibility of the programs and the marketability of the participants within the program. This will be designed for any entity that has the ability to help the participants enter the work force and break the cycle of foreclosure or poverty.

5. Who will be responsible for completing the work necessary to achieve the objectives:

The directors of each individual project will be responsible for reporting to the executive director who will then be responsible for the entire program.

6. Specify the indicators and measures to be used to determine if your objectives have been met. The methodology, type of measurement utilized, and responsible individuals for collecting this data should be specified.

The indicators will be the percentage of people FYI has brought into and through the system within the next 1 ½ years. These will be determined by September 2013 in reference to needs of jobs needed in the business world and to what the basics of each job is. If not having jobs, the determination for successful objectives will be how many people are in the program and have made forward movement. The assessment of the participants will indicate what is needed for them to be ready for job placement and at each level of movement their progress will be noted. This data will be kept by each director of each of the programs and will be assessed by both the individual who will determine readiness for job placement and the executive director.

SIX MONTH REPORT
MORTGAGE GRANT
FAMILY AND YOUTH INITIATIVES
APRIL 2, 2014

As the six month time period that we began this grant passes, this is the report about this grant awarded to Family and Youth Initiatives for the purpose of educating, training and giving the tools to get people back to work in a self sustaining job that will allow them to care for their children and families, be able to have a job that is more long term and be able to keep their home from being foreclosed on or to be able to start the process to self sufficiency.

As was stated in the proposal, for many of our clients and community, the beginnings of the road to self sufficiency has to start at getting the basics for their families. With many of our families not even being able to afford a crib or diapers for their babies, one of FYI primary goals for the *Women's Network* was to allow those who need them, the ability to get the necessary, basic items for their families. Looking at the budget for this grant, one will see the emphasis of the Women's Network has been to buy cribs, car seats, diapers, and other necessary items for the health and safety of their young children. Also bought was updated curricula for the main program, *Earn While You Learn*, and its supporting programs to allow the clients a chance to understand the responsibilities of parenthood, the importance of being a parent, the integration of relationships within the raising of children, and the step to independence after the initial steps to securing the family structure is accomplished. Also added was additional curricula to serve parents of toddlers as many parents of that age child have been in danger of losing their homes which they may have just purchased a year or two before. Each part of the Women's Network budget shows this progression. One can also see the caution of the directors of the programs with spending (they are not used to having the finances so have been very cautious with the money they have been allotted). Because of this caution and the need for additional curricula, we would like to ask to an adjustment to move \$3000 of the money we have for diapers to curricula so that we can keep adding new lessons for the additional clients we have. It will also allow us to purchase needed curricula for our fatherhood program which is included in this section.

The *Latino Connection* materials financials have allowed us to make some of our materials into Spanish. Many of our clients are just coming back to the area and this area will get much more use as the spring progresses. We work with the leaders of this population to expand our services to those who have homes in the area. Sharing our opportunities with the other groups that share our facilities, WIC and Impact Bethel, we have added more families that are struggling to make it and get the ability to buy and sustain a home and thus this area will get more active. For this reason, we ask for an adjustment of \$1500 from the *Job Skills* Stipends to the *Latino*

Connection materials so that we can expand our efforts here. From our records of each of our programs we have serviced 137 youth and adults in the past six months.

Within the next area of the Budget is the smaller program of **Little Scholars** program designed to allow parents to continue with their line to independence by understanding the importance of education for both themselves and their children. This program is in its second 12 weeks of curricula and has had 14 students, who with their parents learning with them, use a social-emotional curricula that allows them to explore their emotions, in relation to others, to their personal world, and to the workplace and others who will be in those areas. This curriculum, **PATHS**, was designed to allow parents especially to understand and learn to control their emotions in regards to both their children and their potential jobs. This program does not set income restrictions and so we have worked with some middle class parents who also have the danger of losing their home. In working with them and their children, this grant has helped them better understand their responsibilities as parents and allows them then to better concentrate on getting a keeping jobs which will allow them to keep their homes intact. The children are the target in this program, but the parents learn how to discipline, teach, and work with their children in a positive way. It also has shown the parents the importance of education and their role in encouraging their children to embrace education as a key to self sufficiency. Because of the popularity and success of this program, we are asking for an adjustment so more program financial help can be added to this area. Looking at doing extensive programming with parents on both nutrition (gardening, food management, and preserving) and budgeting, we will have a special session during the summer for all who have been involved. Garden plots have been put aside for this entire group and adjustments have been made in the garden area for the small children to be with their parents and helping. We would ask for an adjustment from the **Job Skills** contract area of \$2000 to Little Scholars materials so we can continue to make a difference with this community of parents and families. While the numbers are not a lot, in the past six months we have had 14 children and 23 adults involved in this program in which the parents have given testimony of how much their children have grown and changed

GED Programs have been strong and steady. Within the past 2.5 years we have helped over 55 men and women to get their GEDs and have a steady stream now who are working on learning the material to be able to pass on the first try. We have our first student for 2014 who has just signed up for her test beginning April 2. She is a single mom and will be taking the tests over the next month. At least 5 more will be ready within the next 2 months. This program will then give many of the students the ability to get a job that will support their families and allow them to keep their homes. As I said we have had over 55 men and women receiving their GED and we have 10 that we are working with right now, 5 that should be ready to test in the next 2 months. And 3 that are applying for a higher degree that have asked us for a stipend.

Real Life, one of our oldest programs, has been very active but has spent very little of its financial resources yet. This summer we hope to conduct series of Real Life programming within all of our communities and work with especially high school teens to give them the needed information

on financial stability so that they can escape the woes of financial ruin. This program will be more active during the summer months. The numbers of students that we have seen in the past 6 months is 5976.

As the children grow and go into school, the small part our ***Kid's Hope program*** plays in some of the more at risk children's lives in elementary school, shows the importance of this very vital program in the quest for self sufficiency for the parents. FYI works with three elementary schools within the Tecumseh Local School District to encourage individual mentors to become a partner with the schools and one child in it to work with them one hour a week during school time, every week for as long as that child is in elementary school. This vital link within the schools gives FYI a direct link with children and families who might need that extra assistance to help keep their families moving toward independence. It has been shown that crisis in the family with at risk children many times will lead to a breakdown of the family unit. This program is design to intervene in those situations and work with the children, and ultimately the families to circumvent the breakdown and give the family a vent and a positive path to follow so that success and the family unit can be preserved. Little financial help has been given yet but the schools are assessing needs and this part of the grant will be used in the next two-three months.

→ ***Gardening for Health*** is just gearing up for a big summer ahead. Next week we will have the greenhouse erected so that we will have a good area to begin, grow and harvest our food. The garden is all plowed and our expert is getting it ready for families to come and claim their plots and be ready to begin in May. Roger Ritchie, my director for this program, has his plans approved to plant, grow and harvest the vegetables. He is lining up gardeners—which can be people from all aspects of the community—we are receiving seeds and seedlings from OSU Extension agency, and it is almost time to plant. Because still needed is top soil for our container gardens and raised beds in our three locations, we would request that \$1000 be transferred from ***Women's Network*** cribs and \$1500 transferred from ***Real Life*** incentives to allow for more expensive for the garden. This will allow for the garden to grow and become the staple of food for many local families. Which will also allow them to see their way to self sufficiency. Right now before any kind of publicity or push, we have 22 of the 36 plots already taken.

Cole's Warriors, our drug prevention program has had much publicity in the past couple of months. It is essential that we keep educating our youth and the entire communities in which we work to let the adults and youth understand the devastation prescription drug abuse is having on our children and on the those that go into the work force. This major issue has been addressed in our communities in 6 counties by the program of Cole's Warriors. In addition to education, we also have given out secure drug boxes to over 30 families for them to keep in their

homes with their drugs locked inside. This, plus the drug education that Cole's Warriors works to give them, allows us to cut down on the prescription drug problem and is vital to each person obtaining and keeping a job. Danielle Smoot has spoken to thousands of youth and adults since October and will continue to do so throughout the year.

Job Skills 101 is our newest program created to help give many in the New Carlisle and Fairborn Communities a chance to get the education needed to apply, secure, and maintain a stable job that will allow them to buy and keep the payments on a home current. FYI had taken a survey of many of its clients and had seen that many did not have even the most basic of skills to get and keep a job, much less know how to apply, interview, successfully obtain, then keep the job and maybe make a living wage for their family. They all knew that was the only way they would ever be able to afford to buy and sustain a house payment was to get a job that paid enough to sustain their families—and they simply did not have the life skills to do that. When we did the first round of our jobs skills class we had 17 students in four areas of study—warehouse distribution, office skills, small engine repair and computers. We had another non profit, Jobs and More, come in and teach the head skills—resume writing, how to dress for success, what to say in an interview, and all those skills to get a job. They came on Monday and spoke to the entire student body. Then on Wednesdays we had hands-on class with the students in their area of study and trained them on that specific skill. Each instructor was an expert in that area and gave them very personal training, with tips on how to keep the job, how to act in certain circumstances, safety in the job place, and mainly how to do the job. We had a graduation for them in mid December, and all but one of the students got a job within two months. (We worked hard with Job and Family Services to pinpoint them to jobs within their specific skill area). The man that has not gotten a position yet has multiple problems of autism and transportation. We are still working with him.

The current class of the jobs skills is a bit smaller but the students are just as determined. Two things we have added—two more weeks of class for a higher skill level, and a project due at the end of class to showcase what each student has learned. The next class will begin in Fairborn in June 2014. We are proud of this program especially in the area of being able to obtain jobs for the people in our local community who have not had them in a while, who have a need to have one to support their families and who are willing to be trained so they are qualified for one. Our volunteer educators are fantastic and understand both the skill needs of their students and the mental needs of a person who feels hopeless. And we are succeeding.

A move to Fairborn this summer will allow us to spread this a bit further and will be able to train very needy people there as well. But as the six months ends I will also ask that we be granted the other part of this grant—the \$50,000 that will allow us to use the social media tools that we can to make this program, and possibly some of our others, accessible to all in our area of service. Social media use with especially some of the clients in their twenties and thirties will all them to get much of the training we give to local students but not demand that they drive to those classes in person. We cannot do that without the availability of the technology to do that

and that was within the area of the part of the grant approved in theory but not funded yet. We ask that you do that now. Thank you.

WOMEN'S NETWORK AND FATHERHOOD PROGRAM		
One of the biggest areas that FYI sees clients and families in crisis are those who come to our Women's Network or to the Fatherhood program . Most of these people do not have the ability to buy a home as they have been foreclosed on or they do not have the ability to buy one. But before they can buy a home, they have to have the basic necessities so they can feel comfortable leaving their children with daycare, feeling safe that their child has a place to sleep, and feeling secure that the child has diapers to wear. Then they can go to a job with their mind more to the job and not worrying about the safety of their child.

**12 MONTH REPORT
MORTGAGE GRANT
FAMILY AND YOUTH INITIATIVES
NOVEMBER 2, 2014**

As the twelve month time period passes since we began to utilize the Mortgage Grant awarded to Family and Youth Initiatives for the purpose of educating, training and providing the tools to get people back to work in a self sustaining position allowing them to care for their children and families, secure employment, keep their homes and start them on the path to self sufficiency passes, we are submitting a report detailing grant usage.

As was stated in the proposal, for many of our clients and others in local communities, the beginning of the road to self sufficiency must start with securing the basic needs for their families. Many of our families are not able to afford a crib or diapers for their babies. One of FYI's primary goals for the *Women's Network* is to allow those who need them, the means to secure these basic items for their families. Reviewing the budget for this grant, one can see the emphasis of the Women's Network is to buy cribs, car seats, diapers, and other items for the health and safety of the young child. An updated curricula for the main program, *Earn While You Learn*, and its supporting programs was purchased. The updated curricula allows the clients the opportunity to understand the responsibilities of parenthood, the importance of being a parent, the integration of relationships within the raising of children, and the steps to gain independence once the initial action for building the family structure is accomplished. In addition a curriculum to serve parents of toddlers was added as many parents of children of that age have been in danger of losing their homes which they may have just purchased a year or two before. Each part of the Women's Network budget shows this progression. One should also note the caution of the directors of the programs in spending (they are not accustomed to having the finances resources available and have been very cautious with the money they have been allotted). *Because of this caution, we would like to move \$1,000 from the stroller line down to the curricula line in order to purchase life skills a curriculum which is most needed for our clients.*

The *Latino Connection* materials financials have allowed us to translate some of our materials into Spanish. We work with the leaders of this population to expand our services to those who have homes in the area. As this special population grows within each of the communities FYI services, their needs are very apparent. The need for materials written in Spanish are obvious and we continually search for the best ones for each of our programs. Our work with this community will allow the families to mesh into the community and become self sufficient and long time homeowners.

The Little Scholars program is designed to allow parents to continue learning how to parent their children ages 3-6 years of age. With a nationally based social-emotional ***PATHS*** curricula, teacher, Amber Hargett, works with both child and parent on their social skills and feelings along with their academic ability. FYI uses an 18 week program for the students and within that time the families begin to understand the importance of education within their child's life. This program does not set income restrictions and so we have worked with some middle class parents who are also in danger of losing their home. In working with them and their children, this grant has helped them better understand their responsibilities as parents and allows them to better concentrate on getting and keeping jobs which will allow them to keep their homes intact. The children are the target in this program, but the parents learn how to discipline, teach, and work with their children in a positive way. It also has shown the parents the importance of education and their role in encouraging their children to embrace education as a key to self sufficiency. Because of the popularity and success of this program, we are asking for an adjustment so more program financial help can be added to this area. Because we have bought the play set and other equipment needed for outside activities, ***we would like to make an adjustment with the money for the play set and move it up to the curricula materials line.*** While the numbers are not a lot, in the past year we have had 36 children and 57 adults involved in this program in which the parents have given testimony about how much their children have grown and changed

GED Programs are still progressing strong and steady. Within the past 2.5 years we have helped over 55 men and women to get their GEDs and have a steady stream now who are working to learn the material required to pass on the first try. Our GED director, Bonnie Luis, is hard at work with 15 men and women who endeavoring to obtain their GED either in English or Spanish. Since the six month report, we have had 7 who have received their GED certificates. This program will give many of the students the credentials to get a job that will sustain them and their families thus allowing them to keep their homes. As stated, we have had over 55 men and women receiving their GED and we are currently working with 15 more. ***We are asking for an adjustment in this area to allow the purchase of more GED books and the specific workbooks for Math and other subjects. We would like to move \$500 from the stroller line to the GED Book line, and adjust the GED stipends line by moving \$500 to Study Books under the same category.***

Real Life, one of our oldest programs, is busily scheduling for all the schools this academic year. This program goes into 6 six counties—Miami, Clark, Champaign, Greene, Shelby and Logan. It is our gateway to those needing help in those communities. From Middle through high school, The Real Life program teaches responsibility, respect, budgeting, relationships, and long term goals. Every student in those grades hears a 5-7 day curricula, and since we have been returning year after year, they recognize us and their respect is very high. ***We would like to move \$1000 from the incentives to the materials for greater flexibility.***

As the children grow and go into elementary school, the small part our ***Kid's Hope*** program plays in some of the at risk children's lives, shows the importance of this very vital program in

the quest for self sufficiency for the parents. FYI works with three elementary schools within the Tecumseh Local School District by encouraging individual mentors to become a partner with the schools and one child within the school. To work with them one hour a week during school time, every week for as long as that child is in elementary school. This vital link within the schools gives FYI a direct link with children and families who might need that extra assistance to help keep their families moving toward independence. It has been shown that crisis in the family with at risk children many times will lead to a breakdown of the family unit. This program is designed to intervene in those situations and work with the children, and ultimately the families to circumvent the breakdown and give the family a vent and a positive path to follow so that success and the family unit can be preserved. We have used the money to help our mentors get the books and activities they need to help the kids, and would like to assign more money to this program. ***We would ask that \$2000 from Contract with Job Skills be moved to Kids Hope Program to allow us to get new items that will keep them engaged in school academics.***

Gardening for Health

Our community garden this year was amazing and with our director, Roger Ritchie, we had the gardeners learn so much about planting, taking care as the veggies grew, harvesting, cooking and preserving. Many volunteers took part in this effort, but so many of our gardeners, clients, and the public learned how to both save money by growing your own vegetables, plus how to become more self sufficient and healthy by not relying so much on rising prices of food. 2014 growing season in Ohio was excellent and with the abundance of food produced, FYI was able to give 600 pounds to the local food bank, cook with the vegetables every week and show the clients and students how to cook the particular veggies—such as cabbage, green beans, beets, and others that most were not familiar with, and how to make them tasty for children. We also had an herb garden so also taught them the healthy way of seasoning foods without salt. We also built a greenhouse for growing from our own seeds next spring and are now readying it for use. It has allowed us the ability to help many of our job skills students to learn about gardening as well as landscaping, and to understand the value of gardening. This will again allow many of our families—and especially the ones with a farming background, a place to grow their own vegetables and feed their families more economically and thus become self sufficient. And to do this program better, ***we request that \$500 be moved from postage in Cole's Warriors to materials for garden so we can continue this program for items we need to make our Gardening for Health Program a success.***

Cole's Warriors, our drug prevention program has had much publicity in the past couple of months. It is essential that we keep educating our youth and the entire communities in which we work to help adults and youth understand the devastation prescription drug abuse is having on our children and on the those who enter the work force. This major issue has been addressed

in our communities in 6 counties by the Cole's Warriors Program. In addition to education, we also have given secure drug boxes to over 50 families to store their prescription drugs in a secure locked box... This, as well as the drug education Cole's Warriors works to give them, allows us to successfully reduce the prescription drug problem which is vital to each person obtaining and keeping a job. Danielle Smoot has spoken to thousands of youth and adults since October and will continue to do so throughout the next year. We have also instituted a drug education program to offer in schools in our six county area and we use the Cardinal Health national surveys to see the movement of drug usage within schools and communities. The education that was given at the 3rd Annual Cole's Warriors Symposium was outstanding and we had an overwhelming number of good comments about it. In 2015 FYI would like to marry both the medical side and the family side of drug addiction and host the symposium with speakers and experts in both areas. ***Since our symposium was such a success this year and we are making it happen again next, we are asking that \$1000 from postage be moved to the symposium line and \$1000 from the educational campaign line be moved to the materials line. This allows us more materials for all the youth and adults we are seeing. We are also requesting that***

Job Skills 101 is our newest program created to help give many in the New Carlisle and Fairborn Communities a chance for the education needed to apply, secure, and maintain a stable job allowing them to buy and make the payments on a home. FYI has done the 8 week program 4 times presently and is getting ready to do another series of 8 sessions to teach students how to get and keep a job, and then the hands-on education about one of our subjects. With all of our students we partner with Job and Family Services after to get the students into job fairs and sometimes internships which will give them secure jobs. Thus far 90% of our students have gotten jobs.

We are proud of all of our 65 graduates. We are partnering with Clark State to increase our student draw area. We have begun a grant program for reimbursement of college courses. We have an eligibility requirement, class attendance requirements, and grade point requirements and we award the money after the semester is finished, so the student can apply it to the next semester. Thus far we have awarded approximately \$2,000. We pay for room, board, and books. It is exciting to see student who could not have gone otherwise, be able to attend college. ***Because we are not using as much as anticipated, we are requesting an adjustment from the Contracts line of Job Skills of \$2,000 to Kid's Hope so we can provide more help for the elementary children and their parents to help with problems at home and alleviate both broken homes and the consequence of foreclosures.***

We respectfully request an extension of this grant until the end of 2015. We are very conservative with the money and would like the opportunity to keep and utilize it by presenting

the job skills program to many more people as well as to allow more clients to be able to have the opportunity of receiving cribs and car seats and to learn the lessons of good parenting. The opportunities for several of our clients and students are tremendous, and the time extension will allow us to help them fulfill their needs for school and to purchase and keep a home with no chance of foreclosure. Since each of our programs is a stepping stone to self sufficiency, we realize and understand and hope you will as well, the need to go slow with the clients and students. It is only this way that they will be successful, responsible citizens who will give back to others as they grow. Thank you for your consideration.

Respectfully submitted,

Pat Banaszak

We had this report ready to send in last Friday. I apologize for not knowing that it was due by Oct. 31 or that the contract was supposed to be completed by September 30, 2014. That was my responsibility and I ask for both forgiveness and the ability to extend this contract through the end of 2015. I thought we had talked to Jesse about this at the meeting we had in April, and thought that had been adjusted, but understanding now that it was not, I ask for that extension now. As you can see by what we have accomplished thus far with the money we have used, we have been completing many of our objectives and goals for almost all the areas. The fact that we are now at the point of helping people with their college expenses and helping complete that final phase of sustainability so they can own a home and not be foreclosed on is very significant to us and especially to each of those we have helped. As a holistic approach, I know it takes a long time to go from the beginning to get many of our clients, youth and budding adults to the point of self sufficiency and this economic times have been hindersome to so many, but we are making a real difference in many lives and I hope you will allow us to continue to do so. Thank you for your consideration.
